The Center for Collaborative Research for an Equitable California is now hiring a Post-Doctoral Scholar for a Spencer Foundation-funded project investigating ethical issues in collaborative research.

Under the supervision of CCREC’s Principal Investigator/Director and working closely with a Graduate Student Researcher, the Post-Doc will:

- Help develop a casebook on the ethical issues in collaborative community-based research.
- Assist in preparing policy briefs in relation to the codes of ethics of professional associations of researchers (American Anthropological Association; American Educational Research Association; ASA, etc).
- Participate in CCREC seminars, colloquia, and training projects as related to the Spencer-funded work.
- Help organize an invitational conference on the ethical issues in collaborative community-based research.

PhD in a Social Science discipline, Public Health, Education, or Philosophy required by time of appointment.

Preferred qualifications:
- experience with collaborative or participatory research methods
- knowledge of IRBs and issues in research ethics
- experience writing policy briefs
- experience working with community-based organizations

Initial Review Date: March 17, 2014

Required Items:
- Letter of application
- CV
- 3 references
- Sample of published work

Length of appointment: One year, with possible extension, contingent upon availability of funding and performance review.

Start date: July 1, 2014

To apply: https://recruit.ucsc.edu/apply/JPF00090
Refer to Position #JPF00090-14T in all correspondence.

If you have questions about this position, contact Ronald Glass: rglass@ucsc.edu
For more information about CCREC: http://ccrec.ucsc.edu.

CCREC is a University of California multi-campus research program initiative that links university researchers, community-based organizations, and policymakers in collaborative projects to achieve creative solutions to the problems in our communities.
